AFFIDAVIT

On February 21, 2013, Drug Enforcement Administration (DEA) Special Agent (S/A) Jarrell W. Perry and DEA Task Force Officer (TFO) John Walsh were at the Greyhound Bus Station, 320 First Street, Albuquerque, New Mexico to meet the eastbound Greyhound Bus which makes a regularly scheduled stop in Albuquerque, New Mexico.

S/A Perry approached a male, later identified as Matthew Isaac GROBSTEIN, who had reboarded the bus was standing by his respective seat. S/A Perry displayed his DEA badge to GROBSTEIN, identified himself as a police officer to GROBSTEIN, asked for and received permission to speak with GROBSTEIN. After a short conversation, S/A Perry asked GROBSTEIN if he had any luggage with him and GROBSTEIN identified a blue colored suitcase that was lying in the window seat beside him.

S/A Perry asked for and received voluntary permission from GROBSTEIN to search his blue suitcase for contraband. GROBSTEIN unzipped his blue suitcase and removed a black colored "Adidas" brand hooded jacket and held it in his hands. S/A Perry asked for and received permission from GROBSTEIN to search the black jacket for contraband. GROBSTEIN handed the black jacket to S/A Perry. S/A Perry immediately felt and observed a hard like bundle that was concealed in the inner lining of the jacket and also observed glue on the inner lining of the jacket where the bundle was located. S/A Perry felt a crunching like substance inside of the bundle and also observed an area of the jacket that had been opened and sewn back with thread. S/A Perry immediately knew from his training and experience that the bundle and its contents were consistent with illegal narcotics. S/A Perry handcuffed GROBSTEIN, thus placing him under arrest.

GROBSTEIN was transported to the DEA Albuquerque District Office (ADO), along with the black colored "Adidas" brand jacket.

At the DEA ADO, S/A Perry and TFO Walsh removed a clear plastic heat-sealed bundle containing a brownish colored crystal like substance from the lining of the jacket. S/A

Perry and TFO Walsh weighed the bundle, approximately 300 gross grams. S/A Perry and TFO Walsh cut into the bundle, which revealed a brownish colored crystal like substance. S/A Perry and TFO Walsh field-tested the brownish colored crystal like substance, which revealed a positive reaction for the presence of methamphetamine.

This affidavit is submitted for the limited purpose of providing probable cause to support the attached criminal complaint.
